

LIVESTOCK DECLARATION for EU Certification of a Mob of Stock

Use this form to apply for certification of a mob of your stock to EC Organic Regulation 834/2007 / NZFSA Technical Rules without appendix. If this mob is compliant then BioGro will issue approval on this form below, and you can provide a copy of that approval to the purchaser of this mob.

Name: _____ Farm name: _____
BioGro No: _____ Certificate expiry date: _____
Livestock type: _____ Total herd/mob/flock size: _____
Number of livestock in compliance with EC 834/2007: _____
How do you identify animals which are EC compliant _____

1. Farm certified C2, stock not treated:

a) Status of land grazed over the last 12 months by the mothers of this mob: _____
b) Status of land grazed by this mob since birth: _____

2. Farm certified C2, stock treated:

a) Status of land grazed over the last 12 months by the mothers of this mob: _____
b) Status of land grazed by this mob since birth: _____
c) Treatments administered over the last 12 months to the mothers of this mob:
Treatment(s): _____ Date(s): _____

d) Treatments administered over the last 12 months to this mob:

Treatment(s): _____ Date(s): _____

3. Farm certified full BioGro, stock treated:

a) Treatments administered over the last 12 months to the mothers of this mob:
Treatment(s): _____ Date(s): _____

b) Treatments administered over the last 12 months to this mob:

Treatment(s): _____ Date(s): _____

Please note that:

- Stock grazing BioGro C2 land, and stock treated with veterinary treatments (note the maximum number of treatments allowed) within the last 12 months but withheld from organic certification for twice the label meat withholding period, won't qualify for BioGro certification but may qualify for certification to EC 834/2007.
- Your identification and recording systems are subject to audit by BioGro NZ Ltd.
- Individual livestock or their products that are not compliant with EC 834/2007 must not be supplied for EU export.
